

Attention all West Midlands businesses...

Remploy has
talented and
motivated
graduates,
ready to
join your
workforce

Remploy

Putting ability first

Work placements

At Remploy, we support individuals with disabilities, learning differences and health conditions to find employment. Our candidates are equipped with qualifications and skills that could benefit your business.

We're working with graduates across the West Midlands who are talented, motivated and looking for an opportunity to begin their careers and gain some valuable work experience.

Work placements

Work placements offer real and recognisable benefits for your business, including helping you to get ahead of the competition and enter new markets. They may also help you to cover staff leave or absence. In return, you will improve the skills and future employability of local graduates – you may even want to hire them permanently after their placement.

Placements can run from four weeks to 12 months, depending on your requirements. We can even give you £1,000* towards your new recruit's salary (small and medium enterprises only).

*Terms and conditions apply for the £1,000 subsidy, please contact us for further information.

Recruitment solutions

Graduate recruits

Having a diverse and inclusive workplace can bring many business benefits to your company. Giving you access to a wider pool of talent and skills and spreading positive messages about your organisation are just two of them.

Many employers in the West Midlands have chosen Remploy to support their recruitment needs. We have found them individuals with the right skills and knowledge for their business without costly recruitment fees. We think we could help you too.

Ongoing support

Our support doesn't end when your new recruit walks through the door. We will continue to support you and your new employee once they have started work to make sure that everything is running smoothly.

Case Study

Faiza Rauf, a local graduate from Coventry, came to Remploy and was supported into her new role at Tri-X Childcare.

Tri-X Childcare specialises in the development of child protection procedures for childrens' homes, local authorities and safeguarding houses. Faiza now works in their sales and marketing department.

Faiza's manager, Gareth Jones, told us:

"Faiza's multimedia degree is a huge bonus as it means she's able to help us produce promotional materials – she's currently working on a Flash movie which will help us to advertise our services. We're really pleased with Faiza's progress and are convinced that we've found the right person for the role."
