Employability Assessment

An independent telephone-based evaluation and guidance service designed to support solicitors and claims assessors in cases where an individual has a reported health condition, is in receipt of income protection, life insurance benefit or is not currently employed.

The following information will be collected where appropriate:

- Employment history including job role and salary
- Review of training, education and core employment skills
- Snapshot of local employment and training opportunities
- Current health issues, including treatment and symptoms
- Resulting limitations and their effect on the claimant's access to work and daily activities
- Identification of a claimant's future goals

Service summary and expected outcomes

- An assessment of a claimant's capacity for work, based on their function, core employment skills and local employment details, delivered by a Remploy employment, health and disability expert
- Recommendations for further clinical or vocational rehabilitation services, including re-training, up-skilling, medical treatment and specialist assessments.
- Provision of a detailed report with return to work recommendations, focusing on capacity and core employment skills, together with an action plan that can be implemented by the claimant

Cost: £495 plus VAT
