

Vocational rehabilitation

Work Back

A practical support service to identify and implement interventions for maintaining an individual in their current role, or identify adjustments for redeployment.

Service summary and expected outcomes

- Identification of barriers, both real and perceived
- An action plan is developed containing specific goals agreed by the individual and their employer (with progress recorded)
- Advice on a phased return to work, including legal and best practice adjustments, confidence building, aids, adaptations and travel to work support
- Record of contact made and actions undertaken
- Signposting to sources of support and information (work related and personal)
- Job coaching and buddying (may involve an additional cost)
- Training and awareness for the individual, line manager and other staff members (may involve an additional cost)
- Recommendations for future actions and if any further external support is required, with suggested timescales and costs (if any)

Cost: £850
